

## DATA SECURITY

Data Security is extremely important.

Our knowledgeable **I TEAM** will work with you and your staff to ensure security practices are in place at all levels of your infrastructure, including but not limited to:

- Firewalls
- Networks
- Servers
- Workstations
- Disaster Recovery

## HOME SERVICE

- Identify Your Computer Needs
- In-house Repairs
- Network Planning
- Network Security
- Disaster Recovery Plan
- Internet Service Deployment Assistance

Home Service is an available option for our established customers.

## THE I TEAM INFRASTRUCTURE & TECHNOLOGY SOLUTIONS

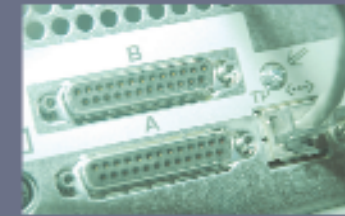

TechniServe's IT professionals focus on network infrastructure and business technology needed to run your organization more efficiently. We design, install, upgrade and maintain your computer network and the business applications they run.

Our highly trained **I TEAM** has experience with all sizes and types of networks. Whether you need a new network designed from the ground up, new hardware or software installed, a technology assessment, a disaster recovery plan, or troubleshooting, the I Team will work with you to provide a solution that fits the way you do business.
